English Picture Vocabulary Cards

Our English Picture Vocabulary Cards provide for pre-exposure to new words that will be practiced and used within unit lessons when beginning to read.

These cards can be used in a variety of ways. They can be integrated into learning centers or used for independent and/or small-group practice.

Reilly Great Reading understands that our English learners may not have the advantage of background knowledge when it comes to English words and their meanings. As your language learner is learning to read words, they are also learning what these words mean. Reilly Great Reading for English Learners seeks to provide support in building background knowledge and pre-exposure for typically used and read words when beginning to read in English.

Our English picture vocabulary cards include CVC (consonant-vowel-consonant) words, simple words with digraphs, and instructional vocabulary words such as phonemes, Heart Words etc. These cards provide meaning and purpose to new English words being read. When students are able to readily recognize and understand words in the new language, they are better equipped and empowered in their practice and application.

Nonsense Words

"Just like the silly face, these are silly words, they hold no meaning. These words are only used to practice combining our letters and our sounds."

© 2023 Really Great Reading Company LLC

Consonant Family

"A very big family of letters... apart from vowels, these are all the letters in the entire alphabet! - Remember, our consonant letters are always in the color black, to help us tell them apart"

© 2023 Really Great Reading Company LLC

Heart Words

iS

"Some words have "tricky parts" these parts "don't sound like they should". Knowing these by heart can help us to read certain words correctly"

for example the /s/ in is sounds like /z/

© 2023 Really Great Reading Company LLC

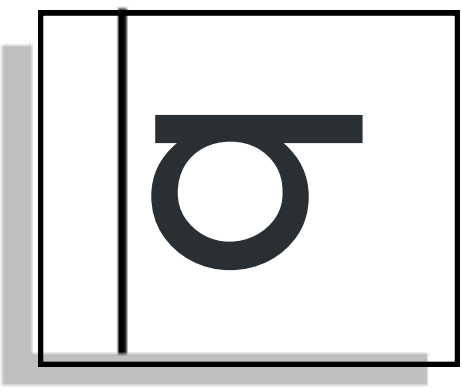

Vowel Family

"A very small family of letters...there are only five- Remember they are always seen in red to help us tell them apart!"
